

Meta Butler, C. R. Eastland, Ray Fox, Arthur Rogers, George Sloan And Claude Wilson Are January Retirees

Y-12's graduating class for January is one of the largest in a long while as six employees, all well-known throughout the plant, take retirements February 1. Mrs. Meta Butler, Personnel Records; Charles R. Eastland Sr., Electrical; Ray M. Fox, Laboratory Operations; Arthur Rogers, Laboratory Operations; George Sloan, Salvage; and Claude C. Wilson, Metallurgical Development, take with them a cumulative 90 years of service with Union Carbide Corporation.

George Sloan

Meta D. Butler

Charles R. Eastland Jr.

Claude C. Wilson

Arthur Rogers

Ray M. Fox

Thumb-nail sketches follow on each of the retiring employees.

The first female employee to retire in a long time is Meta D. Butler, Personnel Records. Everyone in the plant at one time or another has had dealings, either direct or indirect with Mrs. Butler. Coming to Oak Ridge in the early days, she hired in May 22, 1944 . . . after nearly 10 years of service with the Farm Security Administration, Camden, Tennessee.

She was born the daughter of Lucas and Dora Davis, Camden. Her husband Lawrence died in his youth, and she began her professional career.

Mrs. Butler and her daughter Betty Jo, employed in Medical, live at 116 California Avenue, Oak Ridge. She plans to remain there, tending her flowers and keeping house.

Honored At Dinner

Fellow employees from around the plant gathered at the Holiday Inn Friday night, January 22, to honor her with a dinner party. They shall all miss her pleasantness and courtesy.

Charles R. Eastland Sr., Electrical, is a native of Charlotte, Tennessee. He came to Y-12 May 31, 1951, after a career in the lumber business for himself. He worked brief in the mid-forties for Comstock and Bryant, sub-contractors at K-25.

He also was self-employed in the electrical business in Livingston from 1927 until 1951.

Married to the former Myrtle Bockman, the Eastlands live at 104 Sheridan Circle, Oak Ridge. They have one son Charles R. Jr.

Ray M. Fox, Laboratory Operations, is a native of Newport, Tennessee and now lives at Route 1, Lake City. He is married to the former Nellon Breeden and they have one daughter Mrs. Marinetha White.

Worked In Mines

Until 1939 Fox farmed on the homeplace near Bibee . . . and worked from then until 1934 in the mines at Southern Collieries, Beech Grove. In 1934 he came to Oak Ridge with the Armour Insulating Company and from 1944 until 1950 he was with Roane-Anderson.

Fox hired in at Y-12 June 13, 1951.

Arthur "Shorty" Rogers has been around Laboratory Operations and the plant in general for more than 21 years. He came here January 29, 1944. A veteran of World War I, serving in the Army from 1917 until 1919, the colorful Rogers has interesting duty at sea as a mess boy on the SS Point Bravo, a cargo vessel, out of the port of Mobile. He also served on the Tanker SSOT Waring Coast, bound out of New York.

Briefly before his Y-12 career began, he worked with Dempster Brothers, Knoxville, and Brookside Mills.

Two Regional Vice Presidents Are Named To Serve Chicago And Washington Areas

The appointments of two regional vice presidents of Union Carbide Corporation have been announced by Birny Mason Jr., president. Edward J. Fox is located in Washington, D. C.; and Fred L. Shanklin will be located in Chicago, Illinois.

Vice President Fox joined Union Carbide in 1930, at the Chemicals Division plant of South Charleston, West Virginia. During the time he was with this division of the corporation, he held various management positions including that of manager of the Texas City plant. In 1955, he moved to the New York office to become assistant works manager for the Chemicals Division. Following that, he was appointed a vice president of Union Carbide Development Company.

In 1960, Fox became general manager of the corporation's Building Materials Department. He has been assistant vice president of Union Carbide Corporation since 1962, with headquarters in Washington, D. C. He is an alumnus of West Virginia University, where he was graduated with a degree of BS in chemical engineering.

Fred L. Shanklin has been with Union Carbide since 1934 when he joined the Chemicals Division plant in Whiting, Indiana. Subsequently, he held management positions in South Charleston, Texas City, Louisville, Kentucky, here in Oak Ridge, and Kokomo, Indiana, before moving to the New York office as assistant to the manager of Union Carbide's Industrial Relations Department. In 1954, having transferred meantime to Pyrofax Gas Corporation, he was appointed secretary and treasurer of this subsidiary. The following year he moved to the Ore Division of the corporation, where he became president in 1956.

Shanklin was graduated from Purdue University with a BS degree in 1934.

Fred L. Shanklin

Edward J. Fox

Gesundheit . . . It All Means The Same!

Ever wonder why people say "God Bless You," when you sneeze? Well, there's a reason. The custom dates back to 750 A.D. when Pope St. Gregory the Great officially sanctioned the form of prayer.

It was thought at that time that the atmosphere was filled with such large amounts of impurities that a heavy breath of air resulted in immediate sneezing. The words "Bless You" were evoked as a means of averting any ill results from these impurities!

Welding Society Plans Dinner Meet

The Northeast Tennessee Section of the American Welding Society will hold its monthly meeting Tuesday, February 9, at 6 p.m. The meeting will be held at the Bear Restaurant, Oak Ridge.

The technical discussion will be presented by C. R. Lindquist, Section Engineer, Systems Analysis and Planning Section of Cryogenic Development Laboratory, Linde Division, Union Carbide Corporation. He will speak on the unusual uses of air products and unique cryogenic applications. Lindquist has performed as a technology consultant on solutions to problems concerning applications of cryogenic fluids and equipment.

All members and guests are invited.

Y-12ers To Serve As Kiwanis Officers

Two Y-12ers have been named to offices in the Oak Ridge Kiwanis. Larry R. Phillips, Laboratory Development, has been elected president; and Spence Wallace, Uranium Chemistry, will serve as secretary. George Walden will be the Kiwanis' vice president.

Installation of officers in the civic organization took place Tuesday, January 5.

AIChE Sets Dinner Dance Saturday

The Knoxville-Oak Ridge section of the American Institute of Chemical Engineers will introduce and install the 1965 officers at a dinner dance Saturday, January 30.

The buffet dinner preceded by a social hour will be in the main dining room of the Alexander Hotel. Music will follow, provided by the Charlie Baker Combo. Cost of the evening's festivities, which begin at 7 p.m., will be \$8 per couple for local section members and \$10 per couple for guests.

So You Think You Stand Still? . . . Listen

Do you sometimes think you are standing still? Listen to this: by the time you finish reading this one sentence you will be about half a mile east of the spot occupied before you started reading.

During these few seconds the earth has turned a half a mile on its axis and traveled about 30 miles along its course around the sun.

And to top this, the galaxy which earth is a part of moved away from the center of the Universe about one thousand miles!

Dan Wilkins Takes Degree December 17

Plans Graduate Work After Summer Rest

Dan C. Wilkins

Among the December 17 graduating class from the University of Tennessee was another Y-12er . . . Dan C. Wilkins, Y-12's Directive and Special Production.

Wilkins came to Y-12 March 18, 1963 . . . after having completed part of his formal education at the University of Tennessee's Martin Branch. He had also completed an International Correspondence School course.

A native of Paris, Tennessee, Wilkins is married to the former Reba Cox. They live at 116 Rose Avenue, Knoxville, and have twin boys, two years old.

The Y-12er served in the Tennessee National Guard from 1958 until 1962. His degree from UT was in Industrial Management.

Wilkins plans to enter graduate work this fall . . . after a spring and summer quarter rest. Also he plans to utilize the benefits under the Carbide Education Assistance Program, as he has done in undergraduate work.

Congratulations, Wilkins!

"Heartbreaking . . . But is it art?"

Mr. and Mrs. Douglas Melton

Stooksbury Rites Held In Clinton

The plant was saddened last week by the death of Mr. Alvin G. Stooksbury, Stores Department. He died last Wednesday, January 20, in a Knoxville hospital after a brief illness.

Mr. Stooksbury came to Y-12 November 19, 1945, after serving in the United States Army. He was born in Loyston, Tennessee, which is now covered by Norris Lake. Surviving are his wife, Mrs. Ruth Reed Stooksbury; daughters, Joyce and Shirley; father, Conrad Stooksbury, all of Clinton, Route 1; brothers, Homer V. Manchester, Milas B. Norris; sisters, Mrs. Author Wright, Route 4, Clinton, Mrs. Elmer Davis, Heiskell.

Funeral services were held Friday, at 2 p.m. at the Deep Springs Baptist Church, where Mr. Stooksbury was a member. He also served as a deacon and Sunday school superintendent there.

Sincere sympathy is extended the Stooksbury family.

Stooksbury

Katy Kutkost
SEZ:

Lyndon's on the loose again . . . he's off the lights and on to litter—filed litter, that is.

Bob Williamson informs us LBJ's latest edict forbids General Services Administration from accepting any orders for file cabinets. (GSA is the supplier of all governmental agency furniture, including ours.)

Maybe we should take a hard look inside the 3,400 file cabinets we have and perhaps switch stuff over two years old to Plant Records, or File 13.

And who knows . . . in six months the black market price will likely be upwards of \$1,000 for four-drawer jobs—good condition. Then we really can unload.

In the meantime, tell Corum Scott about your excess cabinets.

WEDDINGS

MELTON—HAMMOND

In a double-ring ceremony amid the red and white of the holiday season theme, Miss Vicky Hammond and Mr. Douglas Melton were married at 6 p.m., Saturday, December 12, at the Walnut Hill Baptist Church, Harriman. The Reverend Bill Waits, Wartburg, officiated.

The bride is the daughter of Mr. and Mrs. Jesse H. Hammond, 1017 Trenton Street, Harriman. The father of the bride is in Y-12's H-1 Foundry. The groom is the son of Mr. Dewey Melton, Lansing, Tennessee, and the late Mrs. Melton.

The bride's street-length dress was of white satin brocade with a bell skirt. It was designed by her mother, and featured a scooped neckline with fitted bodice and long pointed sleeves. Her fingertip veil of illusion was held by a crown of seed pearls and lace. Her flowers were white orchids on a white Bible, a gift of her maternal grandmother. Her only jewelry was a string of pearls.

Attendants for the bride were Mrs. Jack L. Harrell, Knoxville, matron-of-honor, and sister of the bride; Mrs. Don Anderson, Oak Ridge; Mrs. Charles Tollett, Crossville; and Miss Priscilla Jennings, Elizabethton. They all wore white wool crepe with red accessories.

The groom's attendants were Ramon Newman, Lexington, Kentucky, best-man; and ushers Larry Melton, David Pass, both of Lansing; and Jack L. Harrell, Knoxville. Ringbearer was Tim Hammond, brother of the bride.

Mrs. Melton is a graduate of Harriman High School and East Tennessee Baptist Hospital School of Nursing. She is employed by the Harriman General Hospital. She was the recipient of a nursing scholarship from the Roane County Medical Auxiliary, January, 1961.

The groom is a graduate of Central High School, and is an apprentice mortician with Schuberts Funeral Home, Wartburg.

A reception, carrying out the holiday colors, honored the couple in Fellowship Hall at the church immediately after the ceremony.

Quip-Tips

Hair seems to be a problem with both him and her . . . with her it's tint . . . with him it's taint.

Some people have New Year's hangovers that last longer than their resolutions.

When you hear someone say there's a beautiful tie between a father and son . . . you can bet the son will be wearing it.

A yawn may be bad manners . . . but at least it's an honest opinion.

Thirty is a good age for women . . . especially if she happens to be forty.

CONTROLLING WASTE

"Economy 'once in a while' is not enough. Controlling waste is like bailing a boat—you have to keep at it." President Lyndon B. Johnson.

THE EYES OF SEVERAL well-known Y-12ers are here superimposed on a rose garden . . . something a blind person has never seen. How would you like to give your eyes to someone after your death? (And how many of the eyes above do you recognize, or have?)

How Would You Like To Will Your Eyes So Others May See?

Want to do something worthwhile . . . even after your death?

L. M. Doney, Y-12's Chemistry Development, is active in the Karns Lions Club, and has come up with an appealing project . . . the support of the East Tennessee Eye Bank. The bank is being promoted in Lions Clubs throughout the area.

The East Tennessee Eye-Bank, Inc. is a non-profit organization for the purpose of obtaining, preserving and transporting eyes and making them available to eye-surgeons to perform the miraculous corneal transplant operation.

With generous help from the public, the bank will be able to make available to hospitals and surgeons a supply of fresh or preserved corneal tissue wherever and whenever needed. An educational program to encourage and extend the knowledge and skill required to perform the corneal graft operation is being undertaken. Secretarial services, telephone services, the collection of donation blanks, their distribution, the provision of eye containers, and facilities for the storage of eyes, transportation, and the provision of research in sight restoration so that more of those now blind may have the miracle of restored sight all are aims of the Eye-Bank.

Eyes are removed after death from persons who have generously pledged their eyesight for this purpose while living. The eye must be removed within four hours after death, and used within 48 hours. Age is no factor if the tissue is clear . . . the eyes of young and old alike can be used.

No Disfiguring

The removal of an eye . . . or both eyes . . . causes no disfigurement.

Glasses are no deterrent either. Whether or not you wear glasses has no bearing on the usefulness of the corneal tissue.

Eyes are never bought or sold . . . and there is no charge to anyone for the use of the Eye-Bank's services.

Conservative estimates are that at least one of every 25 blind people could be helped by the corneal transplant.

Other Varied Uses

Donated eyes serve other purposes, too. All eyes are useable. Where donated eyes are diseased or damaged and cannot be used for grafting, they are carefully

studied in research to help find causes and cures for blindness.

The East Tennessee Eye-Bank, Inc. is affiliated with the University of Tennessee Memorial Hospital.

Doney has the forms that anyone (but minors) can sign donating their eyes to the bank after death.

The offices of the Bank are at Route 20, Oak Ridge Highway. Additional information may be obtained by telephoning Knoxville telephones 584-1553, or 588-2725.

Interesting Benevolence

A legacy to mankind after one is gone is an interesting thought, isn't it? Especially if that legacy means restored or new vision to someone who cannot see.

Those signing donor cards will be given an identification card to insure prompt action to carry out the eye donation at the time of death.

Doney and the Lions are to be commended for their venture into this noble endeavor.

Late January and early February find more Y-12ers celebrating important anniversaries with Union Carbide Corporation. Congratulations.

20 YEARS

Lige A. Turpin, Process Maintenance, January 29.

Henry W. Krouse, Fire Department, January 31.

Everett P. Braden, Arc Melting, February 2.

15 YEARS

Arthur W. Brewer, Tool Engineering, February 1.

10 YEARS

Teddy L. Moore, Utilities Administration, January 27.

Dudley L. Jenkins, H-2 and F Area Shops, January 29.

Samuel G. Campbell, Metallurgical Developments, January 31.

Mary L. Miller, Laboratory Operations, February 1.

Alan D. Hoose, General Field Shop, February 1.

Betty P. Brown, Data Processing, February 2.

Charles K. Morris, Engineering Mechanics, February 2.

GOOSE-HUNTING AGAIN goes Bob Waldrop, Accounting and Budget . . . at right. This time he took another Y-12er along and produced the above kills. From left are Al Frye, B. R. Samples, Technical Reports, who also got a big goose . . . and Waldrop. This time the nimrods went down near Dayton at a place called Blythe Ferry.

Rollmasters Gain On Bush Alleys

The Beavers hold a bare half-point lead in the Bush bowling circles currently. The Rollmasters edged up by downing the Teds for three points. Also moving up, the Spec Five team bettered the Seven Sixties, and the Outcasts ousted the Beginners, all for three points. Sharing two were the Hi Balls and the Beavers.

Tom Watts, Beavers, bested the field in singles, with 224 scratch, 253 handicap game. J. Bartholomew, Hi Balls, took series scratch highs of 516. Troy Burklow, Hi Balls, took series handicap highs with a 632.

The Beavers were best in singles, posting 879 scratch, 1038 handicap. Their 2389 scratch series was high also. The Hi Balls handled the handicap series highs with 2868.

League standings follow:

Team	W	L
Beavers	13½	6½
Rollmasters	13	7
Spec Five	12	8
Outcasts	11½	8½
Beginners	10	10
Seven Sixties	7½	12½
Teds	7	13
Hi Balls	5½	14½

4-Way Tie Locks Up C Bowlers

The Rounders and Big Five moved up to share the top of the C bowling league with the Strikers and Hi Lifers last week. The Rounders slapped the Shud-A-Beens, and the Big Five out-bowled the H. Lifers for the full count. The other sweep in League action saw the Lucky Strikes over the Badgers. Three points went to the Five Roses over the Parbustars, and the Sunflowers over the Hookers. The Strikers and Rodders shared two each.

W. B. Stephens, Sunflowers, hit a peak in singles, posting 244 scratch and 258 handicap. Sterling Ryder, Lucky Strikes, struck highs in series of 590 scratch, 674 handicap.

The Sunflowers took singles, 953 and 1052 and scratch series of 2590. The Big Five, however, edged in and took high handicap series with 2968.

League standings follow:

Team	W	L
Hi Lifers	10	6
Strikers	10	6
Rounders	10	6
Big Five	10	6
Shud-A-Beens	8	8
Rodders	8	8
Lucky Strikes	8	8
Hookers	7	9
Five Roses	7	9
Sunflowers	7	9
Badgers	6	10
Parbustars	5	11

Metals & Ceramics Take Basketball

Jim Carter led his Metals and Ceramics basketball team to victory in the first half of the league's play. His 25 points in the game between the Fearless Five proved too much for the second-placed team. Larry Finch, FF, scored 16 on the losing side. M&C won 43 to 37.

Other games featured in the week's final action saw the Biology squad take an easy one from Y-12's Raiders, 50 to 29. Biology's ace, Harvey Goolsby, tallied 12 for the winners . . . Carlos Brooks scored 13 for the losers.

Analytical Chemistry took ORINS easily also 50 to 33. Tom Kress led his team to victory with 14 through the basket. Joel Warner tallied 11 for the losing combo.

First half standings:

Team	W	L
Metals & Ceramics	8	0
Fearless Five	7	1
Raiders, Y-12	5	3
All Stars, K-25	5	3
Biology	4	4
Analytical Chemistry	3	5
ORINS	1	7
Fuds	1	7
Atoms, Y-12	0	8

D. Branson Repeats As Bowling Champ

Lou Anfinson Tops Women's Division

Don Branson repeats as Y-12's bowling champion as a record number of alleymen turn out for the 19th annual bowling tournament. His All Events Scratch score was 1775, followed by Arnold Tiller with a 1743.

Lou Anfinson came in as women's champion, leading the pack with a 1481 all events scratch score. Her closest contender was Irene Carmack with a 1370.

All events handicap scoring went to Tom Overton with a 1930 and to J. F. May with a 1868. For women it was Edith Duckworth with a 1776 and Athala Markland with a 1741.

The Hi Lifers took team honors, rolling a 2663 scratch . . . followed by the Has Beens who took a 2615. Handicap scoring went to the Rodders with a 2977 and the Beavers with 2957.

Men's Doubles

Men's doubles saw C. W. Craven and E. P. Braden take a 1134 scratch, and Stan Smith and Don Branson with a 1090. Handicap tops went to Arnold Tiller and L. E. Sikes, 1239; and D. W. Smith and Dick Brothers, 1210.

Men's singles were topped off by Don Branson, 615 scratch; and Arnold Tiller, 592. Joe Smyrl took handicap laurels, getting a 714. Stan Smith's 662 followed.

Mixed doubles scratch highs were the 1075 of Sewell Brown and Lou Anfinson and Walter Sherrod and Irene Carmack's 1016. In handicap scoring it was a tie with Bob Hagood-Virginia Newby taking 1195 and Elmer Johnson and Edith Duckworth doing likewise. Second-place went to Jim Young and Joyce Gillihan, who rolled a 1175.

Women's Doubles

The Duckworth-Anfinson pair took women's doubles, scoring a 932 scratch. Irene Carmack and Mildred Morris followed, taking an 848.

Handicap highs went to Athala Markland and Mabel Tyer, bowling an 1126, and Delores Dyer and Jeri Kobisk came in with a 1051.

Lou Anfinson garnered another honor as she took singles high with 496 scratch. Athala Markland's 485 followed. Handicap tops went to Edith Duckworth's 608 and followed closely by Virginia Newby's 607.

The week-end of January 23, 24 at the Ark Lanes looked like homecoming for Y-12ers as they squared off for the annual event.

Ping-Pong Action Fast On Mondays

There's a hot Ping Pong ladder-type competition going on currently at the Wildcat's Den, Oak Ridge. Several Y-12ers are involved in the fierce battle.

If you wish to come and join the fun, and feel good with the paddle, just appear at the Den, after 7:30 p.m., Mondays.

Fishing Rodeo Winners To Be Announced

Big news for fishermen will appear in next week's Bulletin. Announcement will be made of the big winners in 1964's Annual Fishing Rodeo, sponsored by Recreation.

Meanwhile, Cantrell says blanks are available for this year's competition, so stop on by and get your 1965 entries.

THE BIG SMELTERS SMILE big for the camera before recent action in the Classic League, Y-12's oldest and largest bowling group. From left are Al Fischer, J. G. McArthur, W. T. Shelton, John Harding and Cliff Johnson.

Swingsters Swing Big In Classic Alleys To Take Bowling Lead Over Other Fifteen

The Swingsters swung into the lead of the Classic bowlers last week by taking three from the Wasps. The only four point wins of the week went to the Playboys over the Tigers and the Has Beens over the Screwballs. Three points went also to the Cubs over the Rippers, the All Stars over the Eightballs, the Rebels over the Splinters and the Markers over the Smelters.

George Cantrell, Swingsters, took a mighty single game count . . . 245 scratch and 263 handicap. J. W. Halsey, Bumpers, bowled a 615 scratch series . . . and Jack McLendon, Has Beens, had a 681 handicap series.

The Swingsters swept the boards, singles of 1002 scratch, 1098 handicap . . . series of 2739 and 3027.

League standings follow:

Team	W	L
Swingsters	10	2
Rippers	9	3
Tigers	9	3
Bumpers	9	3
Playboys	8	4
Cubs	8	4
All Stars	8	4
Rebels	7	5
Has Beens	7	5
Screwballs	6	6
Eightballs	6	6
Wasps	3	9
Markers	3	9
Smelters	2	10
Splinters	1	11
Wolves	0	12

Alley Cats Move Up In Mixed Race

The Alley Cats moved up to tie the Goofers for the lead in Y-12's Mixed League for bowlers last week. They took three from the Chumps. The Goofers only shared two with the Blue Angels. Also sharing two were the Turtles and the Alley Oops. The Twisters took three from the Bingsos.

Mabel Tyer, subbing on the Blue Angels, rolled a 175, scratch 225 handicap game. Lou Anfinson, on the Bingsos, rolled a 482 scratch series . . . and she and Mabel tied for handicap series, each with 608. Bill Dyer, Alley Cats, rolled a 202 scratch game. Charles Myers, Turtles, took a 232 handicap game. High series went to Bill Stephens, Goofers, with a 555 scratch; and to Pete Rekemeyer, Twisters, who took a 638 handicap total.

The Goofers swept team honors rolling singles of 686 scratch, 826 handicap . . . and series of 1908 and 2328.

Team	W	L
Goofers	12	4
Alley Cats	12	4
Turtles	11	5
Chumps	7	9
Blue Angels	7	9
Alley Oops	7	9
Twisters	5	11
Bingsos	3	13

LUCKY OLD SUN

Helium was discovered in the sun in 1868, almost 30 years before its presence was detected on earth!

HOMESICK—Craving the place you just escaped from.

FOREST KILLER!

Mr. Burnit, the malicious woods burner, robs us of our abundant Southern forests. When he strikes, scenic beauty and outdoor recreation go up in smoke. Lost are valuable raw materials for industries that provide jobs and income. Mr. Burnit is ANYONE who maliciously burns a forest. Be on the lookout and report anyone you see destroying a forest.

Sunny Richardson Chosen 1965 President Of Anderson County's Community Chest

A well-known Y-12er has chosen civic duties over a rocking-chair for his up-coming retirement. Everett G. Richardson, Safety Department, or "Sunny" as he is better known, will serve as Anderson County Community Chest president this year. His retirement from Y-12 is scheduled for May 1.

'Sunny' Richardson

January Retirees

Continued from Page 1

Married to the former Gladys West, Rogers lives at Route 1, Callahan Road, Knoxville.

He is a native of New Bedford, Massachusetts, a colorful New England town noted for its whaling industry a hundred years ago.

Native Tennessean

George Sloan, Salvage, was born near Maryville on the family farm. He now lives at Route 1, Heiskell.

Married to the former Rucky Hackney, Sloan has a daughter Muriel.

From 1916 until 1921 Sloan was with the Cherokee Mills, Knoxville, and from 1921 until 1944 he worked with Appalachian Mills. He came to Y-12 first in 1944, but returned to farming until he came back to Y-12 the second time on July 5, 1951.

Claude C. Wilson, Metallurgical Development, is a native of Murray County, Georgia. He holds a chemical engineering degree from the University of Tennessee.

Wilson came to Y-12 February 17, 1958, after various jobs in Bristol, Virginia (Enterprise Wheel and Car Corporation, 1922-1953), and the Southern Industrial Plastics, Inc., and Sonford-Day Iron Works, both of Knoxville.

Lives In Knoxville

Married to the former Jenny Ray Moore, Wilson lives at 4324 Deerfield Drive, Knoxville. They have two daughters Sally Gerhardt and Alice Wilson.

Wilson is a veteran of World War I, and is a member of the American Society for Metals.

All six employees take the best wishes of friends with them for a happy and long retirement. Their leaving makes a void in

A native of Leominster, Massachusetts (New England Yankees call that Lem-in-ster . . . but that rolls roughly on a Southern tongue), Richardson has been in Y-12 since the early, early days, hiring in January 7, 1944 . . . more than 21 years ago.

He worked in various capacities in the plant as shift supervisor, in Maintenance, and in production, working from Alpha One through Alpha Five. He attended Dartmouth College, the University of Michigan, and Bryant and Stratton Business School, Boston, in his youth. He served in the family business . . . the Richardson Brothers Company, and later the Richardson Piano Case Company, from 1922 until 1939. He worked briefly with the Remington Arms Corporation before coming to Oak Ridge.

Sunny's wife . . . the former Dorothy Pace, or 'Dot' as she is better known . . . and he live at 135 Orchard Road, Norris. Their two sons E. G. Jr. and Briggs live in Oak Ridge and Eau Gallie, Florida respectively. Also at home in Norris is Angus, a Skye terrier . . . a part of the family.

Civic responsibility is no new experience for Richardson. In the past he has served as the United Fund chairman for the drive in Norris . . . is active in Y-12's Credit Union, having served on the board of directors many times, has been president, and has served on the credit committee.

The Richardsons are active in the Norris Religious Fellowship.

Other officers named to the Anderson County Community Chest Fund, which direct the agencies, are Dr. Sidney J. Wiley, vice president; Ted Shappiro, secretary; Warren Hayden, treasurer; and George Anderson, assistant treasurer. The CC maintains offices in the Red Cross Building, Oak Ridge. Mrs. Charles G. Wilder serves as executive secretary.

Canadian Named To UCC Board

Allen T. Lambert, chairman and president of The Toronto-Dominion Bank, one of Canada's oldest and largest banking institutions, has been elected a director of Union Carbide Corporation.

He becomes the first representative on Union Carbide's board from outside the United States. He is presently serving also as a director of Union Carbide Canada Limited, a subsidiary of Union Carbide Corporation.

our lives, but knowing them has enriched us all.

PART OF THE HUGE sampling of door prizes to be given away at tomorrow's Credit Union meeting are seen in the above scene. Mary Frances Bailey, an employee at the Y-12 Credit Union, graciously and most gracefully posed with the loot. This year's annual meeting, beginning tomorrow night, Thursday, January 28, at 7:30 p.m., will be at Jefferson Junior High School, Oak Ridge.

Car pool member wanted from Fountain City area, Cedar Lane, to East or North Portal, straight day. W. O. Chandler, plant phone 3-5921, home phone Knoxville 687-1527.

Riders wanted from Cumberland Estates, Karns area, to Central Portal, straight day. Jim George, plant phone 7-8896, home phone Knoxville 588-6474.

Credit Union Sets Annual Meeting Tomorrow In Ridge

The Y-12 Credit Union again is staging its annual meeting, wherein all members can come and participate in the organization's actions and decisions. This year it is set for tomorrow night at 7:30, Thursday, January 28. The locale has been changed due to the attendance in the past. Everyone should be able to get a seat this year . . . so come on out.

There are committee reports to be given, a dividend to be declared, two directors to be elected, and a member of the important Credit Committee must be selected.

There are a host of door prizes going to some lucky members . . . as the Credit Union lines up such things as electric coffee makers, an electric broiler, nylon blanket, Zebco reel with rod, a black Credit Union umbrella, floor finisher, cigarette lighter, a volleyball-badminton set, clock-

radio, traveller's clock, a kitchen step-stool, a bowling ball carrier, a refrigerator defroster, towel pole, an electric carving knife, an electric can-opener (combination scissors and knife sharpener), and silver dollars if they can be found. How's that for booty?

Important steps were taken during the past year to improve the service to members by the Credit Union. An educational loan was initiated to benefit children of members . . . to lend a helping hand in getting that all-important education.

While business measures the growth of something in assets (Y-12's Credit Union has had phenomenal growth there too) the philosophy of the credit group is more importantly . . . the growth of service. Improved and expanded service to every member is the constant aim of the self-owned, self-governed body.

Jefferson Junior High School overlooks Jackson Square and Blankenship Field. There is ample parking space . . . and SEATS THIS YEAR . . . so Credit Union members, come on out. The more the merrier, they say, and the more membership that participates in the business of the credit union, the better. See you tomorrow night!

Radiation Film Now Available From AEC

A new film which relates the hazards of radiation to the other hazards of our industrial society is now available for loan from the Atomic Energy Commission here. The 16mm color film, "Radiation in Perspective," presents information which has been found useful for persons requiring a layman's understanding of the nature of radiation, such as teacher groups, public safety officials, transportation executives, insurance executives, service clubs, colleges and universities, etc.

We Believe—

SAFETY CREDO

... that every man bears the unalterable responsibility for keeping out of harm's way. That he owes it to himself, his family, his fellows and his job.

... that no man lives or works entirely alone. He is involved with all men, touched by their accomplishments, marked by their failures. If he fails the man beside him, he fails himself, and will share the burden of that loss. The true horror of an accident is the realization that a man has failed himself—and more—that his fellows have failed him.

... that accidents are conceived in improper attitudes, and born in moments of action without thought. They will cease to be only when the proper attitude is strong enough to precede the act—when the right attitude creates the awareness that controls the act.

... that the prevention of accidents is an objective which crosses all levels of rank, organization and procedure.

... that freedom from harm is not a privilege but a goal to be achieved and perpetuated day by day.

... that the elimination of injury and pain through accidents is a moral obligation upon which the final measure of our performance directly depends.

—American Society of Safety Engineers
